

Reference letter

To whom it may concerns:

It is my pleasure to write this letter for Marie Sladkova. In the year 2009 when I was studying at VSB- Technical University of Ostrava, Marie was working at International office for foreign students. My first impression of her is that she is very friendly and helpful to foreign students, and explained everything to them in clarity.

During a couple of months, Marie taught me Czech language at free time. Although the time is very short for a complicated language like Czech, I learned a lot from Marie and found interest in Czech language. Marie has excellent pronunciation, in addition, she is very patient to first beginner, using interesting analogy and small stories to teach the usage of Czech words. Surely, she was born to be a good teacher.

With any further requirement, please not hesitate to contact me, I am very glad to be a help for you.

Ms. Jun Li
